ploswater

*ploswater: A dataset of papers from PLOS Water journal***Description**

This dataset includes data on papers published in the PLOS Water journal. All raw data is obtained using the OpenAlex API. The data includes details on the publication, references, authorship, and institutions.

Usage

ploswater

Format

A tibble with 240 rows and 1506 variables

id Unique Identifier

doi DOI of the study

title Title of the study

display_name Displayed Name in OpenAlex

publication_year Year of publication

publication_date Date of publication

language Original publication language

type Indicates the type of scholarly work

type_crossref The work type as specified by Crossref

indexed_in

authorships Contains detailed information about authors and their institutional affiliations

institution_assertions Information about institutional affiliations

countries_distinct_count Total number of unique country codes among the work's authorships

institutions_distinct_count Total number of unique institutions among the work's authorships

corresponding_author_ids List of OpenAlex IDs for corresponding authors

corresponding_institution_ids List of OpenAlex IDs for institutions of corresponding authors

fwci Field-weighted Citation Impact, calculated as the ratio of citations received to citations expected in the publication year and three following years

has_fulltext Boolean indicating if the full text is searchable in OpenAlex

fulltext_origin Indicates how the full text was obtained (e.g., "pdf" or "ngrams") when has_fulltext is true

cited_by_count Number of times the work has been cited

is_retracted Whether study was retracted or not

is_paratext

topics**keywords** Keywords in the text**concepts** Key concepts in the text**mesh****locations_count** Number of different places where the work can be found**locations** List of all places where the work exists, including journals, proceedings, repositories (like arXiv), and institutional repositories**sustainable_development_goals** Classifications linking the work to UN Sustainable Development Goals (SDGs)**grants** Information about research funding and grants associated with the work**datasets** Associated research datasets**versions** Different versions of the work available across locations (e.g., peer-reviewed published version, preprint version)**referenced_works_count** Number of works this work cites**referenced_works** List of works cited by this work**related_works** Works that are related to this one**cited_by_api_url** URL to access the list of works citing this work**counts_by_year** Year-by-year breakdown of citation counts, excluding citations older than ten years**updated_date** ISO 8601 date string showing when the record was last modified**created_date** ISO 8601 date string indicating when the work was first added to OpenAlex**ids.openalex** The primary identifier in OpenAlex**ids.doi** The Digital Object Identifier, serving as the Canonical External ID**primary_location.is_oa****primary_location.landing_page_url****primary_location.pdf_url****primary_location.license****primary_location.license_id****primary_location.version****primary_location.is_accepted****primary_location.is_published****primary_location.source.id****primary_location.source.display_name****primary_location.source.issn_l****primary_location.source.issn****primary_location.source.is_oa****primary_location.source.is_in_doaj****primary_location.source.is_core**
